

# TEACHERS OF ALL COLORS. STUDENTS OF ALL FUTURES.

## The Problem

North Carolina's K-12 educator workforce lacks the racial, ethnic, and linguistic diversity needed to reflect its student population. While 53% of students are nonwhite, only 22% of educators mirror this diversity, highlighting a pressing need to recruit, prepare, support, and retain more educators of color.

## The Benefits of a Diverse Teacher Workforce

**Enhanced Student Outcomes**

**Inclusive School Cultures**
